

DEBBIE PEARSON

NURSE | AUTHOR | SPEAKER

DEBBIE PEARSON, RN has spent more than 40 years caring for others, as a hospital nurse, a home health care nurse, case manager and court appointed guardian. She founded Nurses Case Management in 2000 to advocate for people who could no longer care for themselves due to age, injury or illness.

Her first book, *Age Your Way*, tells the stories of her experiences while caring for people who could no longer care for themselves due to age, injury or illness; a period where others made decisions and did the best they could to guess at what the patient wanted.

The *Blueprint to Age Your Way* is the fill-in-the-blank system for patients to gather their information and document wishes. This becomes the guide for others to follow.

Debbie is committed to bringing these tools to as many people as possible, her “give back” gift. She’s a passionate speaker on the topic of planning for aging or illness and the difference it can make for both the patient and their family. Debbie lives in Austin with her husband, Hank. They have three children and eight grandchildren.
